INTO PLAY 2022/2023**

BRINGING IMAGINATION INTO PLAY 2022/2023

Our promise to you...

"At Sovereign, we are focused on creating a stimulating play and learning environment for children of all ages and abilities.

Our pledge is to always offer a wide range of imaginative play equipment and facilities that ensure maximum play value whilst maintaining the highest level of safety."

Welcome to our 2022/2023 brochure!

Play is at the top of every child's agenda and no doubt creating a safe and durable environment to encourage this is at the top of every school and nursery's wish list. The process of choosing not only the right equipment but the right level of safety and suitability can seem daunting...

...that's where you call us!

Engage with us from the very beginning of your process so that we can initially provide you with a free consultation – your own specialist in the provision of play, a member of the team with years of knowledge and understanding in order to advise you correctly on all the important aspects. We'll be with you throughout; from providing plans to meeting with you and even the children, right through to manufacturing, installation and full after sales care.

For three whole decades, we have built a reputation envied by many of our peers, no project is too big or too small you see; our focus is the same – to create a much loved outdoor environment not just for play but for learning too. A space that is stimulating and safe for everyone who uses it, a true opportunity to 'learn outside the classroom'.

Call us today on 01702 291129 and let the fun begin!

What do the icons mean?

Product size
This symbol indicates the maximum size of the equipment

Minimum space required
Indicates the required area for the installation of the equipment

Height of fall
Indicates the point at which the free height of fall is calculated

Age
Signifies the intended age range for access to the play equipment shown

Safer surfacing needed
Indicates that additional safer surfacing is required for this product

Grass surfacing OK
Denotes that the equipment is ideal for use on well-maintained grass without the need for additional safer surfacing

Bespoke Items

► Designed, built and installed by Sovereign Play

With decades of combined experience in the play industry, our Area Managers can take your project's needs and wants, and deliver fun, safe and educational outdoor spaces for children of all ages. Our design and quote services are FREE for all prospecting customers.

We have invested heavily in our design department, giving us the tools and expertise to deliver solutions that meet every playground's unique requirements. The very same team work on all of our projects – meaning no matter the project's size, you will always receive our very best service. Our design team will prepare you an easy-to-follow package containing everything you need to know about your project:

- **A 2D technical drawing (1)** – showing you exactly what our proposed works are.
- **A 3D visualisation (2)** – to get a feel for how the final space will look, and to wow your colleagues.
- **A fully itemised quotation** – giving you full visibility of each product and service cost.
- **Specifications for each product and service**

It goes without saying safety is of paramount importance to us at Sovereign Play. Our products and services have been designed to ensure the integrity of your playground is a managed risk. All of our playgrounds are designed to be compliant with BS EN standards, and for continued peace of mind our after-care inspectors are fully RPII (Register of Play Inspectors International) certified. We will be with you every step of the way for the lifetime of your playground, giving you peace of mind for the safety of the children, and the value of your investment.

Our factory and installation teams are responsible for making your new play area a reality. We'll keep you informed of our progress at every step of the way. We believe that strong communication is essential for mitigating disruption and ensuring a smooth installation. Every member of staff that visits site will have a DBS certificate so that you can be assured of your children's safeguarding.

Don't just take our word for it! Find us on Google Reviews or go to page 146 to see why Sovereign Play is the playground supplier of choice for many schools across the UK.

Musical Play

► Playing a significant role in musical education, the pentatonic scale provides an excellent contribution to playful learning. Instruments such as xylophones are designed with pleasing notes that let children make music effortlessly, giving them the ability to create their own melodies. Full octaves are also available on request.

CONDITION OF SURFACE

- The surface must be free of dirt, dust, chemicals and any significant oily substances.
- Our Thermoplastic Playground Markings cannot be supplied on top of old or cold plastic, although they can be applied on top of other thermoplastics, provided these are already well adhered to the surface.
- Prior to applying the markings, the school will need to ensure that there are no loose aggregates on the surface where the markings are to be supplied.
- Sovereign may need to charge extra for preparation and cleaning of the surface prior to marking if this has not been done.
- Sovereign is able to create individual designs, providing basic artwork is supplied, by quotation only.
- As our policy is one of continuous improvement, we reserve the right to change specifications without prior notice.
- All designs include the detail and lettering shown. Additional details and alterations can be undertaken subject to price verification.

PLEASE NOTE

The minimum order value for Playground Graphics is £1,000 plus VAT.

Activity Trails

In-Out trail

▶ The In-Out trail is so much fun they won't realise they are getting great exercise and education at the same time. This trail ticks the exercise, numeracy and literacy boxes. Balance your way along the wobbly walk, count the circle activities and hopscotch, read the instructions for each section and remember don't walk on the cracks!

Multi-Use Goals

- ▶ As children become older their play needs start to change. Games requiring an increased element of skill that encourage healthy competition become more popular, such as netball, cricket, hockey, basketball and football become more popular. Here at Sovereign we recognise these needs and offer a multi use games wall for the sports you want to play.

▶ No matter how safe the equipment, there is always a risk that a child will trip or lose their grip and fall. We take this seriously so all Sovereign's safer surfacing is designed and installed to comply fully with BS EN 1177. These surfaces range from bark chippings to full coloured wetpour. Each individual surfacing has its own characteristics in terms of appearance, anti-vandalism, structure and cost.

Surfacing

START!

FINISH

Grass Saver/ Grass Guard

► Sovereign's grass matting surfacing is ideal for areas that require protection against erosion from foot traffic. It is perfect for both low and high level adventurous play equipment. Matting is available, tested to BS EN 1177, up to a CFH of 3m onto well kept grass.

Critical Fall Height (CFH)

The Critical Fall Height is calculated by the maximum intended height for play from which a child could fall and the ground level. The thickness and area of safer surfacing will depend on the Critical Fall Height.

All safer surfacing has been shown on each item that requires it and shows the CFH and quantity required.

Bark Chippings

► Sovereign only uses a Deluxe Hardwood Chip safer surface that has virtually all the dust and fine particles removed. Designed specifically for high movement areas, it also has high fire resistance compliance to BS 4790:1987.

Installation: The Bark Chippings are usually retained using log edging. BS EN 1177 recommends that all loose fill surfacing is laid to a depth of 300mm unless the play equipment has a CFH of under 600mm, where a depth of 100mm deep surfacing can be used.

Maintenance: Regular checks for foreign objects in the bark. Bark will require regular forking and raking to maintain the required depth.

Bonded Rubber Mulch

Colours Available:

▶ Long-lasting and available in a spectrum of colours, Bonded Rubber Mulch is a popular form of safety surfacing made from shredded rubber chippings. It is slip resistant, comfortable to walk on and highly versatile. The depth of surfacing required varies according to the CFH of the equipment.

Installation: Bonded Rubber Mulch can be laid in a variety of ways directly onto existing well drained worn or well kept grass areas with a geotextile underlay. By laying it this way, the surface follows the contours of the grass. Or, as an alternative, by removing the top turf layer to give a flatter finish.

Maintenance: Virtually maintenance free. There is some minor migration of the rubber with normal usage.

Wetpour

Colours Available:

▶ Sovereign only uses a high quality EPDM Wetpour Safer Surface that can be laid directly onto a hard, sound, existing surface, or onto pre-prepared base works. The depth of surfacing required varies according to the CFH of the equipment.

Installation: Wetpour has great versatility. As it is laid 'wet', it can be formed into imaginative shapes and also follow contours. Combinations of colours can be used to brighten up dull spaces, and inlay techniques can be used to create an attractive stimulating play environment.

Maintenance: Wetpour is virtually maintenance free and is probably the most cost-effective safer surface currently available.

Artificial/Vivid Grass

Colours Available:

Grey
Black
Red
Pink
Blue
Green
Purple
White

Sovereign offers a range of Artificial and Vivid Grass surfacing that can be used in a variety of circumstances. Either to meet BS EN 1177 standards or to aesthetically improve a dull grey tarmac space.

Installation: Artificial and Vivid Grass can be laid onto an existing grass or soil area, with minimal ground preparation. It can also be directly laid onto tarmac and other similar hard surfaces.

Maintenance: There are no specific maintenance requirements. A regular check for foreign objects in the fibres is recommended in the deeper surfaces, along with occasional brushing to maintain the pile.

Needlepunch Sport Surfacing

Colours Available:

Platinum Grey	Lavender
Black	Navy Blue
Vivid Yellow	Fjord Blue
Sunset Orange	Marine Green
Tillet Red	Grass Green
Terracotta	Olive Green
Burgundy	Ochre
	Chestnut

Needlepunch Sport Surfacing is a tactile and vibrant surface solution that provides a wide range of benefits, including improved safety, longevity, and low maintenance. This versatile surfacing is available in 15 different colours, and can have all manner of designs cut into it.

Installation: Needle punch can be laid onto existing tarmac areas, or installed with groundworks into a grass area to ensure the best longevity.

Maintenance: As a sports surface Needle punch is infilled with sand to make it extra hard wearing. This should be topped up occasionally. Check out our install guides for more information. A regular check for foreign objects in the fibres is recommended along with occasional brushing to maintain the pile.

▶ Every school and nursery has bikes, scooters, outdoor games, skipping ropes, gardening tools and sandpit toys that need to be put away. Our storage products have been specifically designed to remain robust and secure to provide you with practical solutions for all outdoor belongings.

Their customer service is unrivalled and the repair packages make it easy to maintain the equipment as time goes on." **HEAD OF NURSERY**

Additional Information

Why choose Sovereign?

- ▶ Sovereign has the know-how to create and install an imaginative, stimulating and safe outdoor play area. Our experience and expertise within the education sector is second to none, and this is why designing imaginative play and learning environments for children comes naturally to us.

An adolescent's journey into adulthood begins in the playground, and our products support this growth from the early years through to Key Stages 1-4. We understand the significance of outdoor learning and integrate this with what is important for children, to develop products that directly relate to, and enhance, the National Curriculum especially within the seven areas of learning.

Our compassion and empathy enables us to deliver a personal approach that has never failed to bring our customers the best results. Our educationally-savvy national sales force works closely with our innovative Research and Development department. This enhances our natural ability to advise, design and create environments that are richly resourced with play materials for children, which in turn results in us maximising play value, safety and customer satisfaction.

A Sovereign installation can satisfy all the benefits regarded as important to outdoor learning by:

- encouraging healthy and active lifestyles through giving children the opportunity to engage in physical activity, movement and exercise
- increasing young people's confidence and well-being as well as developing their creativity and resourcefulness
- encouraging children to interact with one another, make new friends and develop social skills
- allowing children to experience new challenges, assess risks and manage difficult situations in a safe and supervised environment
- supporting the development of life skills such as problem solving, rule making, trial and error and exploring new ways of doing things
- promoting knowledge and a greater involvement in National Curriculum subjects such as Maths and English
- providing opportunities for imaginative role play, inventiveness and adventure
- giving children the opportunity to investigate, explore and discover the natural world

Call us today on 01702 291129

The importance of linking education & play

- ▶ At Sovereign we have been delivering specialist bespoke outdoor play spaces for over 20 years and we know that a rich and varied environment is key to a child's learning and development. We know how to give children the confidence to explore and learn in a secure and safe, yet challenging outdoor space.

AN APPROPRIATE OUTDOOR SPACE THAT CAN BE EITHER:

- a physical environment
- an imaginative space
- a key learning zone

Or one that includes all these areas. Which is where the help and support of our trained consultants with the core education knowledge and design know-how to create an imaginative, stimulating outdoor area gives you faith that Sovereign is the perfect partner for you.

It is during our initial consultation where between us we establish what your primary objectives are for your space, are you looking for:

- Somewhere the children can play all year round
- A space linked directly to the specific area of the curriculum
- Something that forms part of your school improvement plan
- Meeting the needs of children of different ages in a shared outdoor space
- To improve areas highlighted by Ofsted
- Increase the number of inclusive play opportunities in your outdoor area

At Sovereign we are able to meet all of these objectives with our outstanding range of meticulously designed equipment by our own team of product designers before they are expertly crafted by us especially for you.

We have a passionate understanding of the ongoing financial pressures facing schools and education and this is reflected in our pricing which is continuously monitored to make us competitively priced in the market resulting in maximum play value for you. It makes us proud that for so long we have been able to deliver outstanding outdoor environments to thousands of grateful customers.

No money? No problem...

- ▶ No matter how important you know the provision of play equipment to be, having no funds means no playground!

Quite simply, funding can bring you the capital you need to support your project. You're at the starting post, so where next?

» **PLAY EQUIPMENT Funding** Your complete guide to securing funding for play spaces

▶ WE CAN HELP YOU!

We have a proven track record in helping clients win grant applications with the use of our detailed design packs and our funding guide. Request a FREE copy of our comprehensive guide to funding featuring help on how to fill in the application forms and a full list of potential grant providers.

- ▶ If your school or nursery are fundraising for your own equipment, or the PTA need a little help, there are also great fundraising ideas within the guide. You can request a free fundraising poster to help record your progress and add extra attention to the project at hand!

*Terms and conditions apply. Ask for details.

Why make them wait?

- ▶ Did you know you can order new equipment today and pay with our fantastic spread payment plan?

- ▶ The biggest constraint of developing outdoor areas is always budget. Our easy spread payment plan allows you to order today and pay over three financial budgets, all the while your children are benefiting from additional years of enjoyment and physical development.

5 REASONS TO CHOOSE A SOVEREIGN SPREAD PAYMENT PLAN:

- 01 Price Rises/Inflation**
Material costs are increasing. By selecting the payment plan the school will lock in today's price and avoid any future price increases. The payment plan is inflation-proof so the payments won't go up regardless of inflation.
- 02 Bigger Solutions, Minimal Disruption**
The school can get everything they want now instead of the items they can afford and save the disruption from multiple installations.
- 03 Fixed Payments for Financial Certainty**
The payments are guaranteed to be fixed throughout the Agreement so the Business Manager gets financial certainty which allows for accurate forward budgeting.
- 04 Pay as they Play**
Schools pay for salaries, utilities and services over spread payments as they derive the benefit from them and they can apply this to play equipment too.
- 05 Commit now, and raise funds along the way**
PTA's do an amazing job of fundraising for their schools, however for larger projects this can take a long time. Meanwhile prices increase making their job harder. Committing to a spread payment plan allows children to use the equipment now, while the PTA continue to fundraise – which is ideal for children in years 5 and 6 who can otherwise miss out on their parents contributions and hard work.

Best Value Assured

Design and Planning

Our team of Area Managers are fully versed on all safety guidelines and in order to assist with the complex issues involved are able to provide a FREE consultancy and design service. We will visit and survey your site – at no cost to you – and then offer advice on the selection and layout of equipment. If required, our in-house design team will produce computer aided plans, drawn to scale. All items of equipment will be shown, using minimum use zones and areas of safer surfacing where applicable. Also included, will be a full breakdown of costs, together with installation charges. There will be information regarding prompt payment discounts and lease purchase options that are available to you. We recommend that potential customers take advantage of this free, no obligation service as we firmly believe that it brings the best results.

Installation and Supervision

All orders are produced to strict quality controls with a typical turnaround time of six to eight weeks. A complete installation service is available using our own fully trained and experienced constructors who work to the most exacting standards. However, alternatively we can deliver equipment to your site on a supply only basis together with full installation instructions. If required, a Supervisor can be provided to oversee the customer's own installation team.

Health and Safety

Sovereign is a member of RoSPA (The Royal Society for the Prevention of Accidents). We are also CHAS (Contractors Health and Safety Assessment Scheme) accredited.

Aftercare

Our Sovereign Compliance offers inspection and maintenance contracts via a national team of RPII (Register of Play Inspectors International) qualified

personnel, who carry out frequent post installation inspections. Each installation comes complete with a complementary After Care Manual available from our website, that contains useful safety and maintenance guidelines, including check sheets for performing weekly routine inspections.

Why Choose Sovereign?

- Access to our experienced and knowledgeable sales force who will undertake, at a time convenient to you, a free site visit to discuss your requirements, budgets and timescales
- A free presentation pack containing scaled designs, specifications and a full breakdown of individual costs
- Peace of mind that Sovereign is a diligent company used to working in schools, colleges, nurseries, commercial and local authority sites
- DBS (Disclosure Barring Service) checked personnel, strong warranties and a reliable after sales service.

Continuing Improvement

As our policy is one of continuous improvement we reserve the right to change product specifications, prices and availability without prior notice. We will however endeavour to keep customers informed at all times.

Document Permissions

No part of this document may be reproduced in whole or in part without prior permission from Sovereign.

Terms and Conditions

All prices shown exclude VAT and are subject to our normal terms and conditions, available on request.

Best Value Assured

Sovereign has been awarded a number of recognised accreditations and certifications. We adhere and strictly comply with British and European safety guidelines including BS EN 1176 and 1177.

Sovereign are pleased to be an FSC® (Forest Stewardship Council®) certified company. The Forest Stewardship Council® is an international nongovernmental organization that promotes environmentally appropriate, socially beneficial, and economically viable management of world's forests.

QUALITY GUARANTEED

- Our main timber posts are slow grown from managed, sustainable sources and pressure treated to exacting standards.
- Our trail support posts are circular to reduce the risk of injury. With added safety in mind, they are machine rounded with chamfered edges, avoiding the risk of injury from splinters or sharp edges.
- Our metal components are either made from stainless steel or steel that has been put through pre-treatment processes to provide non-toxic, weatherproof and extreme atmospheric resistance properties.
- All our hardware is hidden with plastic caps to cover any bolt holes to protect children against potential finger traps, sharp corners and to deter vandalism.
- We only use galvanised steel core ropes that are nylon coated with hydraulically pressed ends.
- All joints and connectors are made from heavy-duty metal or moulded plastic.
- Our roof units and coloured panels are manufactured from co-extruded, high density polyethylene, which benefits from being vandal resistant, chemical resistant, UV stable, and provide excellent wipe clean surfaces.
- When installing safer surfaces, we calculate the critical fall height and install to the correct depth in accordance with BS EN 1177 standards.
- Our playground markings are made with the best product materials available for long lasting, extra reflective, free of lead and chromates and non-slip graphics.

The mark of responsible forestry

Sovereign Early Years Online Shop

Designed and built by Sovereign

We have brought the same quality of our outdoor playground equipment that is known and loved throughout the play industry to this collection. Our Early Years website has everything you'll need to fully kit-out your nursery's outdoor space! From unstructured physical play to quiet reading areas, we're sure to have something for a wide range of activities.

Made for Early Years Spaces

Our new equipment provides BIG fun without the need for lots of space. The children can make all the noise they want with our Chain Rattle, and splash away with our Splish Splash Tuff Tray Table. All of these items are freestanding and can be easily moved and stored away by 2 adults in the blink of an eye! View the full collection online today!

Easy Online Payments

Choose the most convenient way to pay for you. We accept all major cards, checkout via Klarna, or even pay via invoice. It has never been easier to shop online with us!

White Glove Delivery Service

A reliable, easy delivery experience.

Getting equipment from our factory to your playground has never been easier. Our white glove delivery service comes as standard with every Early Years Collection order. Thanks to investment in our own national delivery network, we can offer this unparalleled experience:

-  We'll remove all packaging
-  Delivered to exactly where you need it (not just kerbside!)
-  Fast manufacturing and delivery
-  Nominated-day delivery

Delivery to Mainland UK only. For additional information about delivery areas and times, see our delivery policy or return policy online.

Outdoor Furniture

Don't just take our word for it

- ▶ From Primary Schools to Parish Councils, Pre-Schools to Parks, the projects undertaken have proved to be of great success. The testimonials just keep on coming, it is always good to hear exactly how the clients feel about their project.

St Joseph's RC Primary School Resurfacing Project - Newport

▶ For this project it really was a case of starting with a big blank canvas - a bare tarmac playground!

The brief was to develop this KS2 playground into an active space, whilst maintaining actual space for the children to run about. The headteacher was met regularly by children with scrapes and bumps from falling in the playground, on what she deemed a deteriorating tarmac yard. Her aim was to find a suitable, budget-conscious floor covering to suit the children's needs and offer that active play space.

"Seeing the children's faces as they walked into the yard when they returned to school the following Monday was an absolute joy. They were so shocked as I'd kept it a surprise and it completely transformed our outdoor space. In addition to this, the number of accidents has reduced significantly, and the children are able to use it for a range of activities from gymnastics to rugby in all weathers!"
Jane Beckett, Headteacher

Bernards Heath Junior School Playground Development - Hertfordshire

▶ For this project at Bernards Heath Junior School we were fortunate to have a completely blank canvas as a starting point.

The aim was to focus on KS2 children in an area to the side of the playground near the school field, which wouldn't impact on free play, but would give a safe and challenging playtime incorporating climbing, sliding and swinging for 20 to 30+ children.

With this age group in mind, Sovereign produced an exciting design using our popular Sahara climbing frame and challenging Labyrinth trail, all installed on safer surfacing.

"We initially called in Sovereign as they had been recommended by the head teacher at our infant school who had used their services several times. We met with Leigh, Sovereign's area manager, who came to the site and discussed what could be achieved in the area we wished to develop. We finally settled on two pieces of equipment, the Sahara and Labyrinth, which to this day have proved a resounding success with the children. So much so that we have decided to add another large piece, the Prometheus, to our school field. In addition, Sovereign will extend our existing tyre park and lay safer surfacing to the whole area making it more usable through the year."

Mrs Kilpatrick, Bernards Heath Junior School

Don't just take our word for it

Dean Bank Primary School Playground Development – County Durham

► Sovereign created three new play zones for the school. We accomplished the brief by filling some empty spaces where play was lacking, and varied the type and challenge in the equipment.

For the younger children we looked at a new, exciting and more challenging option. Also adding a new spider's web for imaginative play.

For the older children we added a gym zone, and a climbing zone incorporating two different climbing net elements.

"From our initial contact right through to the finished products, we have been impressed yet again with everyone's enthusiasm and professionalism. Nothing was too much trouble.

The whole process has been smooth and the results are amazing. We are delighted with the end result; the new area is fantastic and the children (and staff who all have had a sneaky go on the bumpy slide) are really enjoying using it. It has transformed our EYFS outdoor play area."

Dawn Emmerson, Business manager

Slated Row School SEN Playground Development – Buckinghamshire

► We were asked to create an exciting, imaginative, colourful and challenging new play area for children at Slated Row School with varying levels of both age and ability.

We installed a fantastic roadway area for bikes and scooters with a bridge, speed bumps and a roundabout and mini mound in the middle. For the older and more able children our amazing Sahara climbing frame in school blue colours which offers a wide variety of activities and also a fun basket swing and DDA swing for those less able to enjoy.

There were further areas of artificial grass and toadstool seating and music instruments for the children to be creative and enjoy. The school were delighted with the project from start to finish and the children love their new play areas.

"I loved the design and how quick Sovereign were with making changes and suggesting solutions to make our playground a better environment.

I would 100% work with Sovereign again and fully recommend it to other schools. Justin Mottaz in particular was extremely professional, proactive and passionate about our school having a playground which was valuable for many and makes our students happy."
